ICRA 2026 Paper Title

Author 1[1] and Author 2[2]

***Abstract*—ICRA (IEEE International Conference on Robotics and Automation) is the premier robotics conference. This template follows IEEE conference formatting guidelines with a 6-page limit plus up to 2 optional extra pages.**

I. Introduction

The page limit for ICRA is typically 6 pages, with an option to pay for up to 2 extra pages. Submissions are checked by PaperPlaza for margin compliance.

II. Related Work

Discuss relevant prior work in robotics, automation, and related fields [1].

III. Methodology

Present your approach with appropriate formalism:

$$\tau = J^T(q)F$$

where τ is the joint torque, J is the Jacobian, and F is the end-effector force.

IV. Experiments

Present experimental validation:

TABLE I
Experimental Results

Method	Success Rate	Avg. Time (s)
Baseline	72%	15.3
Ours	**91%**	**8.7**

V. Conclusions

Summarize contributions and discuss future extensions.
