Agenda

1. Approval of the minutes of 6 October and matters arising
2. Release 4.2 readiness (go/no-go)
3. Customer feedback: onboarding drop-off
4. Q4 roadmap budget request
5. Any other business

Minutes

1. Approval of previous minutes

Presented by Priya Raman

Discussion. The minutes of 6 October were circulated on 7 October. Lena noted that the date for the API deprecation notice should read 1 December, not 1 November. All actions from the previous meeting are closed except A-07 (pricing page copy), which is carried forward below.

Decision: Minutes approved with the one correction above.

2. Release 4.2 readiness

Presented by Lena Fischer

Discussion. Feature freeze was reached on 9 October. Two blocking defects remain: a sync conflict on shared workspaces (fix in review) and a crash on export with more than 500 rows (root cause found, fix due Thursday). Regression testing is 92% complete. Marcus confirmed the new settings screens have passed the accessibility review. Aisha asked for the release notes 48 hours before launch so the support team can prepare.

Decision: Conditional *go* for Tuesday 20 October, provided both blocking defects are closed and verified by Friday 16 October. If not, the release moves to 27 October.

Action: Close and verify both blocking defects — *Owner: Lena Fischer; due 16 Oct*

Action: Share draft release notes with Customer Success — *Owner: Tom Okafor; due 16 Oct*

3. Onboarding drop-off

Presented by Aisha Bello

Discussion. Analytics show that 38% of new trial accounts leave during step 3 of onboarding (connecting a data source). Support tickets point to unclear error messages when credentials are wrong. Marcus proposed a "skip for now" option with sample data; Lena warned this needs a separate empty-state design for dashboards. The council agreed the problem is worth fixing this quarter.

Decision: Design to prototype the sample-data option and test it with five trial users before any engineering work is scheduled.

Action: Prototype and test the sample-data onboarding path *Owner: Marcus Hall; due 30 Oct*

Action: Rewrite the step-3 credential error messages *Owner: Lena Fischer; due 23 Oct*

4. Q4 roadmap budget request

Presented by Priya Raman

Discussion. Priya requested funding for one additional contract front-end engineer for ten weeks to deliver the reporting module by the end of Q4. Daniel confirmed the request fits within the unallocated Q4 product budget but asked for a written estimate with milestones before sign-off.

Decision: Approved in principle, subject to Finance receiving the estimate.

Action: Send estimate and milestones to Finance *Owner: Priya Raman; due 19 Oct*

5. Any other business

Presented by Chair

Sofia (absent) had asked by email for a decision on the pricing page copy (A-07). Deferred to next week because Sofia was not present to discuss it.
